

2 JUNIOR SUITES

Junior suites are between about 26m² and 30m² in size and are located on the sixth (top) floor of the hotel, with sloping ceilings and offering a unique view across the rooftops of Paris. The floors are parquet style and there are plenty of windows, giving an atmosphere of a typical Parisian pied-à-terre. The junior suites are equipped with a large, comfortable lounge area, decorated with bright, velvet wall-hangings. There is a coffee table and a sofa bed which can accommodate two children under 11 years old, accompanying their parents.

One of the junior suites has a king size bed 180 cm × 200 cm and the other a round bed, 2.5 metre in diameter. In each suite, the bathroom fittings are designed by Erwan & Ronan Bouroullec, with a hydro-massaging bath, Italian style shower, illuminated bathroom mirror, heated towel rail and bathroom scales. There is a separate toilet with washbasin.

Beds are of a good height and very comfortable (pocket sprung mattress with bamboo ticking and poplar wood slatted base) with soft quilts and cashmere throws.

Down pillows are available on request. Furnishings are unique to each of the two suites and signed by contemporary artists and designers: bright Kryon headboards, bedside tables, coffee table in solid light oak or walnut, Saint-James chair designed by Jean Nouvel, cloud chair designed by Lisa Widen, Coogee chair by Sentou in bright colours. Lighting is variously in metal, polymer, silk swathes or even natural wool.
